The Riviera Group Clarification of Specification

* Length of the hull (Lh) to ISO8666: Includes all structural and integral parts. (ie. the moulded length of the hull). It excludes parts that can be removed in a non-destructive manner-without-affecting the structural integrity of the craft, eg. pulpits, outdrives, diving platforms, rubbing strakes.

** Dry weight represents the estimated minimum weight of a boat with standard engines and options, no fuel or water on board, no equipment or provisions and no personnel. The stated dry weight may be exceeded.

*** Denotes nett tank capacity. For usable capacity do not rely on more than 90% of tank capacity. Actual usable capacity will vary according to boat trim and sea state.

Speeds are subject to normal weather conditions, fuel and or water levels, passengers and equipment loads.

Refer to your Riviera Owner's Manual and your Dealer for height to hardtop and maximum height details.

The specifications in this document are not complete or definitive and are subject to change without notice and therefore may not be current. Riviera Marine (INT.) Pty Ltd will not be liable (in contract, tort or otherwise) for any loss resulting from the inaccuracy of any information contained in this document.

Specifications may vary on a regional basis. Some images in this brochure may included non-standard or after market options.

Warnings

The Riviera Group is committed to building the best luxury cruisers, tailored to suit specific countries and their individual compliance laws and regulations. Riviera equipment and build specifications approved for one country may not be compliant with another country's safety and equipment regulations and as such those cruisers may have no recourse to The Riviera Group's extensive manufacturer's warranties.

Each Country and State has different safety equipment standards. It is important that you ensure the requirements in your jurisdiction are met prior to the vessel being used.
